FYS Rubric for CourseNetwork ePortfolio

The goal of the exploratory ePortfolio is to convey 3 things to the audience. First, career or theme you researched this semester. Use explorer if still researching. Second, spotlight research invested in searching the career in a showcase about either an event attended or career choice. Third, represent you as a professional. Grammar, spelling, quality images are all part of the image you present to the world. This should be reflected in your ePortfolio.

Use this rubric to self-assess how you met the goals of the assignment. Circle where you feel your ePortfolio is in development.

- Developed – Student prepared section to the highest level possible at this time. Items reflect quality and time invested in the presentation.
- Emerging – Student completed the section, but content can be improved or expanded.
- Initial – Student completed the section, but the content reflects need for improvement in quality, content or spelling and grammar.
- Missing – Student did not complete, or section is missing did not meet minimum criteria.

	Developed	Emerging	Initial	Missing
Header (5 pts per section)	5	3	1	0
